SABINE Wireless System Packages

Handheld packages (UHF & VHF)

Includes Handheld Mic and Mic Clip

SWM-3000H UHF Handheld Package

SWM-1600H VHF Handheld Package

SW-30R 30-Ch Diversity Receiver with Battery Charger

SW-16R 16-Ch Diversity Receiver with Battery Charger

SW-30H Condenser PLL Handheld Mic

SW-16H Condenser PLL Handheld Mic

SWC-CLIP Handheld Mic Holder

Lavalier, Headset & Guitar packages (UHF & VHF)

Includes Beltpack Transmitter and either a Headset mic, Lavalier mic or Guitar plug in a foam-filled case.

SWM-3000L UHF Lavalier Package

SWM-1600L VHF Lavalier Package

SWM-3000D UHF Headset Package

SWM-1600D VHF Headset Package

SWT-42L Unidirectional Lavalier Mic, Mic Clip, 4-pin connector

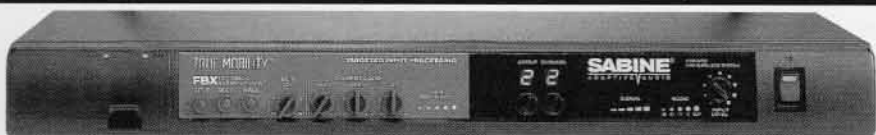

SWT-25H Unidirectional Headset Mic, 4-pin connector

SWT-30G Guitar Plug & Cable, 4-pin connector

- **UHF**
- SW-30T PLL Beltpack Transmitter, 4-pin connector
- **VHF**
- SW-16T PLL Beltpack Transmitter, 4-pin connector
- SW-16T-D2 PLL Beltpack Transmitter, 4-pin connector

All Sabine Wireless Systems include:

- Rack ears
- Antennas
- Power cord
- 1/4" patch cable
- Clip for Mic
- Rechargeable battery (1)
- Wind screen (Lavalier mic only)

UHF Export Frequency Groups *

914.275 - 929.925 MHz
802.675 - 815.950 MHz
786.275 - 801.925 MHz

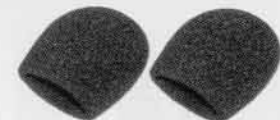

* NOTE: Frequencies available determined by import country restrictions.

VHF Export Frequency Groups *

200.35 - 202.45 MHz
201.75 - 203.85 MHz
202.25 - 204.35 MHz
215.2 - 217.3 MHz
245.8 - 247.9 MHz
247.05 - 249.15 MHz

SABINE Wireless Accessories

SWC-TRI Desktop microphone tripod

SWC-SCR1 Wind Screen (1 set of 2)

SWC-SCR2 Wind Screen for SWT-42L Lav Mic (1 set of 2)

SWB-BAT Rechargeable 9-volt NiMH Transmitter Antenna Battery

Color Band

SWC-B1 Assorted color bands

SWC-CLIP-LAV Mic Clip for SWT-42L Lav Mic

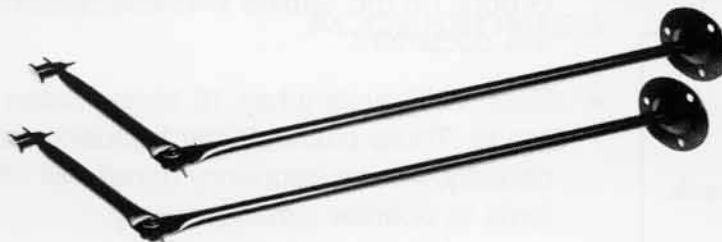

SWC-CLIP SW-series Handheld Mic Holder

SWA-UEXT UHF Extension Antenna (1 set of 2)

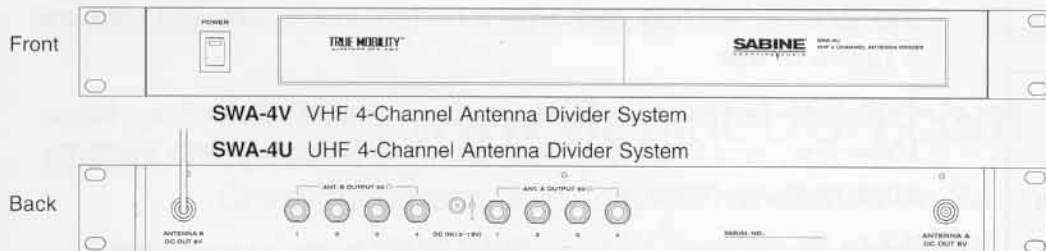

SWA-UB UHF Extension Antenna Booster (1 set of 2)

SWA-EXTM Mounting Bracket for Extension Antennas (1 set of 2)

SWA-100 TNC Rear to Front Antenna Converter Kit (1 set of 2)

Not shown:

SWC-200 Condenser Microphone Capsule Module

SWA-VEXT VHF Extension Antenna (1 set of 2)

Sales Information

The Customer

Any microphone user who wants great sounding mics with built-in feedback control.

Singers, musicians, churches, schools and universities, DJs, conference rooms, board rooms, stage actors, and amusement parks.

Proven FBX technology combined with one of the highest quality wireless microphone systems available.

The Solution

- ◆ **Targeted Input Processing** — each and every microphone has its own customized FBX filters, compressor/limiter and de-esser. You don't have to compromise processing for many mics — each mic is perfectly tuned!
- ◆ Sabine systems cost no more than other high quality wireless systems.
- ◆ Available in both UHF and VHF frequencies with handheld, lavalier and headset mics, plus accessories, including antenna dividers and extensions.
- ◆ Sabine's processing is **FREE!** Similar RF systems are priced the same, but we give you FBX, Compression, De-esser and Battery Charger for **FREE!**

Sales Tips

Every Sabine Wireless includes:

- ✓ Patented FBX Feedback Exterminator®
- ✓ Compressor/Limiter
- ✓ De-Esser
- ✓ Built-in battery charger

More Power to your customer!

Sell another Sabine Rechargeable battery as an add-on sale!

- ◆ Use 14 UHF systems simultaneously (using 914-929 MHz or 786-801 MHz systems; 10 systems simultaneously with 802-815 MHz systems). Refer to the UHF Export Frequency Groups on the Sabine Wireless Systems Packages page of this document.
- ◆ Each VHF system has 16 transmission channels within its range. Three channels per frequency may broadcast simultaneously. Mixing frequency bands will allow more than 3 systems to operate simultaneously.
- ◆ The built-in battery charger sells the unit! Don't forget to sell extra batteries with every system! The drawer on the front of the receiver will fully recharge a battery in 8 hours and give you 5 hours of use.
- ◆ Our systems have excellent specs — the RF, Selectivity, Noise Rejection, and SNR numbers compare favorably with systems costing much more.
- ◆ Add a Guitar Plug & Cable (SWT-30G) to make your own Guitar System package.
